EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Siegel on 3/6/06.

The application has been amended as follows:

a) Claim 13, last line, after "stirring" insert - - and remaining in said container after said operation to biologically decompose - -.

b) Claim 18, line 4, after "said" insert - - blackable source of pressurized water - -.

The following is an examiner's statement of reasons for allowance: In the US patent to Wooten et al. the waste does not remain in the container (133) for decomposition, but is washed out into the receptacle (27) and subsequently flushed to the waaste water tretment system. The same can be said for the method disclosed in Robinson.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
